## Training Course

- Oracle Developer 11g **(2010) To (2010)**
- **C# And Visual Basic.NET (2011) To (2011)**
- Web Design (ASP.net-HTML5-CSS3-Java Script, Bootstrap) **(2015) To (2016)**
- Human Development **(2012) To (2013)**
- Business English **(2012) To (2013)**
- Office Management **(2012) To (2013)**
- Financial Accounting **(2012) To (2013)**

## Area of Expertise

### Visual Basic 6.0

- Handling The Tasks Of Designing And Maintaining SQL,Oracle,Access Databases And VB6 Applications
- Designing of Multi-Layer Forms Using Designs and Layouts in VB
- Establishing Connection of Forms to Database
- Recommending and Implementing Changes in Existing Applications for Ease of Data Import To SQL Databases
- Planning Measures for Identifying and Removing Bugs, Beta Support and Release Testing
- Analyzing the Function and Interactions between Network Components
- Removing Complexity in Applications Using Visual Basic Knowledge
- Performed database designing and developed applications for the support of different business personnel
- Used Visual Studio, and SQL Server for the analysis and development of online systems
- Analyzed and exchanged administrator, designed, developed and maintained the web-based and automated accounting systems and various other applications using Visual Basic and SQL Server.
- Designed forms for the software being developed by the organization

### C#·Vb.NET·ASP.Net

- Responsible for the development of applications by utilizing C# , Vb.NET
- Developing and installing software products and operating systems
- Conducting test, and analysis of software products
- Performing coding and documentation
- Designing ERP for systems
- Designing many different modules like data parsing which was develop by using C# , Vb.NET
- Working on the integration of the external services within the websites as the development in the application
- Handling the customer requests, problems and troubleshoot them  
Training junior C# ,Vb.NET ,ASP.Net programmers

### **SharePoint Developer**

- Develop and implement SharePoint applications.
- Reduce operating costs by creating solutions for quicker processing and increasing function automation.
- Use a variety of technologies to develop code on both server and client sides.
- Design SharePoint environments.
- Manage SharePoint accounts as necessary.
- Work with users to help them get the most out of SharePoint in performing their job duties.
- Meet with users to get feedback, identify issues, and define goals for further SharePoint work.
- Document development processes.
- Test and troubleshoot SharePoint applications, modifications, and development.
- Managed SharePoint accounts and privileges.
- Studied new web technologies as they became available and integrated them where applicable.
- Implemented standard operating procedures for account security.
- Planned and implemented testing schedules and procedures to ensure optimal SharePoint function.
- Trained users in effective utilization of SharePoint applications.
- Maintained backups for installation.
- Documented new development.
- Analyzed system processes and provided appropriate designs and recommended improvements if required.
- Developed an efficient architecture for all SharePoint implementation.
- Provided technical support for project lifecycle and documented it.
- Coordinated with development team and developed efficient solutions for SharePoint.
- Assisted customers and provided technical support across all internal and external sites.
- Maintained optimal quality solutions to resolve all business issues.

## Database SQL and ORACLE

- Responsible for the designing the advance SQL and Oracle queries, procedure, cursor, triggers, and scripts
- Collaborating with the application developers in data modeling and E-R design of the systems
- Creating, modifying, maintaining and optimizing SQL and Oracle server database
- Maintaining documents and creating reports for business analysts and end-users
- Responsible for the management of the database performance, backup, replication, capacity and security
- Gathered, analyzed and stored data making use of a computer language
- Assisted in the analysis and designing of the software development life cycle
- Studied the requirements and system specifications
- Understood the current systems, coding and testing
- Hosted the system on production server and train the user about the system

## Web Designer

- Ongoing design and maintenance of new and existing websites.
- Liaising closely with a customer or client at the design stage.
- Interacting with designers, programmers and clients.
- Creating content that converts visitors to purchasers.
- Enhancing the look, functionality  
And appearance of a website.
- Fixing problems encountered in the functioning of the website.
- Designing websites that are easy and effective to use.
- Designing web campaigns for online initiatives, editorials, emails & banners.
- Experience of HTML (1) To (5), CSS (1) To (3), JavaScript, Bootstrap

## Other

- TMG
- Server Manager
- IIS
- Active Director
- Windows Server 2012, 2003
- Windows 7, 8.1,10
- Office **All versions**
- Photoshop **All versions**
- Macromedia Flash

## **Work Experience**

### **IT ADMINISTRATOR**

#### **ART METAL COMPANY**

**2007-2008**

- Manage the Information Systems of the Company with Supervision of the Applications Designed

### **Director of Programing Department**

#### **Electro Cable Egypt**

**2008-Now**

- Proficiency In Various Software Design Industry Where She Worked For Computer And Information Systems And Cables, With Major Production Companies In The Middle East) Egyptian Electrical Cables And Specialist Computer Programmer And The Work Of Regular And Intense, Which Helped To Create An Advanced Generation Can Deal With The Computer.
- Work On The Design And Development Of Programs Using Advanced Structural Programming Visual Basic And Visual Basic.Net
- Work To Develop And Design Websites HTML-CSS-Java Script

## **Education**

### **Bachelor of Information Systems**

#### **Ain Shams**

**2003-2007**

Bachelor of Commerce (Information Systems – Business Administration) From 2007 to 2006, Ain Shams University Grade: Good Graduation Project Design for the Management of Libraries Using (Visual Basic-Photoshop Flash) and Getting Very Good

### **General Diploma in Accounting**

**2013**
