- Illustrating some theoretical parts.

MARCH2019 – JUNE2019

**TECHNICAL SALES ENGINEER, ALANDALUS LIGHTING SOLUTIONS**

Responsible for

- Doing lux calculations.
- Matching clients' needs in lighting system.
- Doing technical and commercial offers for clients.
- Giving support to our clients any time as possible as we can.

## SKILLS

- Auto-cad
- Dialux
- Self-Study
- Work in groups
- Leadership
- Hard-work

## ACTIVITIES

NEW GIZA project is my big project until now. Firstly, estimating this project and along time with the general contractor (ALSHAMS for contracting) negotiation until we take the project in hand. Secondly, starting the project was a big matter for many reason: making good contact with the ECG consultants to know their methodology, choosing qualified technicians suitable for the project. Thirdly, putting the project on track was my job.

## PERSONAL INFORMATION

- Date of Birth: 13 Dec 1993
- Nationality: Egyptian
- Marital status: Single
- Military service: Finished
