Summary

Skilled Backend Developer and Full Stack PHP/Laravel Developer with [3] years of experience in designing, developing, and maintaining complex web applications. Proficient in creating scalable, secure, and high-performance backend solutions, with a strong emphasis on Laravel and PHP frameworks. Demonstrated expertise in database management, API development, and integrating third-party services. Adept at delivering end-to-end solutions, from initial concept to deployment, while collaborating effectively with cross-functional teams.

Additionally, experienced as a Teaching Assistant in Computer Science, where I contributed to academic excellence by guiding students in various programming languages, software engineering principles, and web development techniques. Passionate about sharing knowledge and mentoring aspiring developers. A problem solver with a deep understanding of software development best practices and an eagerness to stay updated with emerging technologies.

Experience

Backend Developer (PHP | Laravel), BlueCode Company, KSA

January 2024 – Present

- Designed, developed, and maintained backend components of web applications using PHP and Laravel.
- Built and integrated RESTful APIs to ensure seamless communication between front-end and back-end systems.
- Optimized database queries and implemented efficient data models using MySQL to enhance application performance.
- Contributed to the full software development life cycle (SDLC), from planning and design to deployment and maintenance.
- Projects – (https://tryamlak.com , https://town.tryamlak.com/)

Teaching Assistant, Alamein International University (AIU)

Full Time February 2023 – Feb 2024

Part Time(Two days) February 2024 – Present

- Assisted in teaching undergraduate courses in Computer Science, providing support in subjects such as programming, data structures, algorithms, and web development.
- Conducted lab sessions, tutorials, and workshops, helping students understand complex concepts and improve their practical skills.
- Assisted professors in preparing course materials, grading assignments, exams, and projects, ensuring timely feedback to students.
- Mentored and guided students in their academic projects and research, fostering an environment of learning and growth.

Backend Instructor (PHP | Laravel), Route Academy

April 2023 – Present

- Delivered comprehensive training sessions on PHP and Laravel frameworks to aspiring developers, ensuring a solid understanding of backend development concepts.
- Developed and customized course materials, including tutorials, practical exercises, and projects, to facilitate hands-on learning experiences.
- Guided students through real-world projects, providing mentorship and feedback to help them build robust, scalable web applications.
- Conducted assessments, quizzes, and evaluations to track student progress and ensure mastery of core backend development skills.
