📍 Cairo-Egypt

📅 1998/01/08

Profile

A passionate Full Stack PHP Web Developer with a strong focus on building scalable and maintainable web applications, especially in the e-commerce domain. With hands-on experience in PHP, Laravel, and JavaScript, I've contributed to projects that enhanced system performance and improved user engagement. Known for writing clean code and delivering results that align with business goals. Eager to grow and take on new technical challenges.
