PROJECTS

Amtalek - Real state App. link

- Searching for properties based on your need.
- Listing your own property for Rent and Sale as a brokerage company or an individual.

GO OFFER- Featured coupons App. link

- Applying discount coupons from multiple stores..

PROFESSIONAL EXPERIENCE

Webeina for Digital Soultions   **July 2024 - Present**

Developed and maintained an e-commerce application, implementing product catalogs, secure checkout, and order management. Integrated third-party payment gateways, optimized UI with modern Android components, and improved app architecture using MVVM. Focused on performance, scalability, and user experience to enhance engagement.

e-RAMO For Digital Solutions   **Jan 2024 - July 2024**

I developed and maintained multiple applications, ensuring well-organized code throughout the process. My primary focus was on the Real Estate application and the ECommerce Promos app, where I implemented features that enhanced functionality and user experience.

AS A FREELANCE   **Feb 2024 - Present**

Echo Inventory

Developed an inventory app with real-time Bluetooth scanning for stock tracking. Added Excel export for employee records, streamlining documentation and performance reviews.

EDUCATION & CERTIFICATIONS

B.D. Computer Science
University : Shrouk Academy
2019 - 2023

Android development diploma
Route academy
May 2023 - November 2023

SOFT SKILLS

- Willingness to learn.
- Open to Feedback.
- Communication.
- presentation skills

LANGUAGES

- English
- German
- Arabic
