Profile

Proficient Flutter Developer with nearly 1 year of practical experience through internships, focused on building high-performance, scalable, and user-friendly mobile applications. Skilled in Dart, Firebase, RESTful APIs, and state management solutions like Bloc, Cubit, and Provider. Experienced in Clean Architecture, custom UI design, and integrating backend services. Strong problem solver and a collaborative team player eager to contribute to impactful projects.

Work Experience

Flutter Developer Intern | Code Craft

Apr 2025 – Present

- Built scalable Flutter apps using Clean Architecture and Bloc/Cubit state management.
- Conducted detailed code reviews to ensure high-quality, maintainable code.
- Contributed to projects like HM Store, Gawahegy, Gawahegy Vendor, Masyaf, and QTX Driver.

Flutter Developer Intern | Puresoft

Dec 2024 – Feb 2025

- Developed business-oriented mobile apps with ERP integrations.
- Applied state management and clean architecture.
- Ensured UI/UX consistency and performance.

Flutter Developer Intern | Nami Soft

Sept 2024 – Nov 2024

- Integrated Firebase services to enhance real-time features.
- Participated in code reviews and design discussions.
