Objective

A dedicated Frontend programmer and designer with extensive experience in crafting innovative, responsive user interfaces using modern technologies such as HTML, CSS, JavaScript, React, and Next.js. Passionate about enhancing user experiences to be seamless and engaging across diverse devices, I thrive in problem-solving and collaborating within multidisciplinary teams. Committed to continuous learning and skill development, I am eager to leverage my expertise in technology and software while maintaining the flexibility to explore new opportunities and stay at the forefront of web development trends.

Experience

Beyond Creation | Junior Frontend Developer

2025-2024

- Developed interactive user interfaces using HTML, CSS, and JavaScript, improving user experience (UX) by 15% based on customer feedback.
- Optimized page load speed by 30% through efficient CSS and JavaScript code minification.
- Integrated frontend interfaces with backend APIs to enhance dynamic data rendering.
- Built web applications using modern frameworks like React.js or Vue.js, reducing development time by 25%.
- Ensured cross-browser compatibility (Chrome, Firefox, Safari) for consistent user experiences.

Elkhlood Group | IT Support Specialist

2024-2023

- Managed and optimized SQL databases, reducing data retrieval time by 40%.
- Provided technical support to over 100 users monthly, resolving 95% of issues within the first hour.
- Developed Python and PowerShell scripts to automate routine tasks, reducing human errors by 60%.
- Conducted training sessions for employees on new systems, increasing team efficiency by 20%.
- Utilized Power BI and Tableau to create analytical reports, supporting strategic decision-making.
