Objective

Aspiring Network Security Engineer with a Bachelor's degree in Electronic Engineering (Communication and Network) and professional certifications in CCNA and CCNA Security. Seeking a challenging internship opportunity to leverage strong analytical skills, solid knowledge of network protocols, and passion for cybersecurity to contribute effectively to an organization's security posture and enhance hands-on experience in the field.

Education

Bachelor of Science in Electronic Engineering
Menofia University — Faculty of Electronic Engineering
Specialization: Communication and Network
Graduation: Jan 2025

Certifications

Cisco Certified Network Associate (CCNA), NTI
CCNA Security

Technical Skills

Network Security: Firewall Configuration, Threat Detection, Vulnerability Assessment
Networking: TCP/IP, LAN/WAN, Routing & Switching
Programming: Python (Network Automation and Scripting)
Tools & Technologies: Wireshark, Cisco Packet Tracer, Network Protocol Analyzers
Languages: English (Very Good), Arabic (Native)

Projects & Experience

- Developed Python scripts for network automation and monitoring as part of academic coursework.
- Participated in simulations configuring and securing networks using Cisco Packet Tracer.

Languages

English: Very Good (Written and Spoken)
Arabic: Native

Personal Attributes

- Strong analytical and problem-solving abilities
- Detail-oriented with a proactive approach to learning
- Excellent team collaboration and communication skills
