Email: Moh_fawzy@yahoo.com

Personal Data:

Birth Date : 20-10-1988
Place of Birth : Egypt
Gender : Male
Marital Status : Single
Military status : Completed
Birth Address : Kafer fesha –Menuf- El Menufia-Egypt
Current address : Kafer fesha –Menuf- El Menufia-Egypt

Objective:

A challenging career opportunity in the field of Computer Science business to build upon and utilize my work experience, academic background, communication and Leadership skills.

Education:

2005-2009 Menufia University, Faculty of Computers & Information

Computer Skills:

Programming Language Skills

- Agile
- Blackberry (OS 5, 6, 7, Z10)
- Android
- Objective C and Swift (3,4)
- J2se
- C#.Net, WPF, ADO.net, linq andASP.net 3, 3.5, 4.5, Telerik

- Java Script
- JQuery
- CSS3
- SQL, TSQL
- HTML4, HTML5

Databases Engines:

- Oracle 11g, 12c
- SQLServer 2005, 2008, 2010, 2012
- MySQL5

Operating Systems:

- Windows XP, ME, 2000, Win7
- Linux ubuntu

Development Tools:

- Xcode
- Android Studio
- TFS
- Visual studio 2015, 2017

Personal Skills:

- Ability to work in groups.
- Work under Pressure.
- Ability to adaptation.
- Reliable.
- Self motivated
- Co-operative & Hard worker.
- Self-Learning

Language Skills:

- **Arabic:** Mother Language
- **English:** Very good
- **French:** Fair

Graduation Project:

Liver Surgery Planning Through Virtual Reality (LSPTVR)

It's to help Doctors to prepare for Liver operations, make training before doing operations, detect the Cancer in Liver and which part will extract and control this by Virtual reality part.

First part (Visualization):

In this Doctors select the Location of Computed tomography (CT) Image to our Program Then Program

Begin to make segmentation for this CT to get Liver form it, make enhancement for output image, finally

Make 3D Model for segmented CT.

Second part (OpiTrack System):

After 3D Model is built Doctors will see the Model not in Computer Screen but they wear head- Mounted Display (HMD). By our program we detect the Motion of Doctor's head and affect by it on the Model and allow to User to use some tools like scissor or blade to make affection in 3D Model.

Tools:

- Java 2 Stander Edition (J2SE)
- C#.NET
- C++ with opencv

Grade: 90% Excellent

Platform:

- Windows Xp, Vista, win7

*****The project has won a prize from ITAC as Best Project in field of Information Technology & Computer Science**

Working Projects:

Project Name	Nazeel
Description	Mobile application that use in reserved hotels in KSA. owners of hostels can see the reversion and comment of clients. App display dashboards about the status of rooms available and occupied. Clients enter their data and reserved the chooses room and can pay through visa. Application notify owners about new reversions. https://itunes.apple.com/eg/app/nazeel-%D9%86%D8%B2%D9%8A%D9%84/id1345352269?mt=8 https://play.google.com/store/apps/details?id=com.alia.nazeel
Company	HighTech
Tools	Swift ,android

Project Name	Agricultural Census(Statistics and Information Fund)
Description	Mobile application measures KSA power economically agricultural and animal where the application collects data from reality based on information compiled by the supervisors of the land of the field and based on this information issued reports on the economic strength of the Kingdom of agriculturally and economically. (Indoor app)
Company name	Interteleco
Tools	Android
