Project Link: [GitHubAPI](#)

Training project

- EgyptionStartups

This app is an exercise on what I have learned from some courses from sites such as udemy and udacity and this application is taken from the idea of applying my composition of small companies and some written speech has nothing to do with reality in Egypt, but it is just a test for implementation.

- Some material design
- Using Networking Library (The Volley Networking Library)
- SharedPreferences
- Intents and Intent Filters

Project Link : [EgyptionStartups](#)

Training project

- StartupsCommunity

StartupsCommunity is an application that show startups and companies in egypt and guide, to create your startup and there is some motivation videos from youtube

- Using Some material design
- Using Fragments and Intents
- Youtube android API

Project Link: [StartupsCommunity](#)
