PROFILE

As a student in applied arts you learn not only design, but how to think in every aspect of life. I always believed that I was meant for something great, so I started my way after graduation with Acuniite. It was a pretty big gamble, but we pull it through in the end. Being operations manager at Acuniite helped me alot in my professional life and personal life. I know I can now move to the next step knowing that I will do my best to reach my goals.
