Dear Mohamed Elkhafaf,

Mar 3, 2018

Congratulations on successfully completing the NDG Linux Unhatched course in the Cisco Networking Academy. By completing this course, you have obtained the Linux knowledge covered by the CompTIA A+ Certification and are now prepared to take the next step in your IT career.

Linux is everywhere! As the reach of Linux continues to grow, it has established itself as a core skill for all IT professionals. Linux skills are more in demand than ever and employers are struggling to find qualified candidates to meet their needs. Become a stronger prospect in the job market by continuing your education with one of the courses listed below, aligned to industry recognized certifications.

NDG Linux Essentials
This course is the perfect next step for beginners looking to deepen their understanding of the world of Linux. This full semester course can be taken from an instructor or as a self-paced learning experience. The NDG Linux Essentials course is designed to prepare you for the Linux Professional Institute Linux Essentials Professional Development Certificate.

NDG Linux Series
This certification level series offers beginners more rigorous in-depth coverage. The NDG Linux I and NDG Linux II courses focus on the basic Linux system administration skills needed in preparation for the Linux Professional Institute LPIC-1 or CompTIA Linux+ powered by LP1 certification.

IT Essentials
For more on fundamental computer and career skills for entry-level IT jobs, Cisco Networking Academy offers IT Essentials, aligned to the CompTIA A+ certification. The IT Essentials curriculum includes hands-on labs that provide practical experience. Virtual tools help you hone your troubleshooting skills and practice what you learn.

Again, congratulations and we wish you continued success!

Sincerely,

Rich Weeks
President
Network Development Group
