

CURRICULUM VITAE

Personal Information

Name Waleed Ahmed Fouad Keshk
Address Egypt - Port Said - Port Fouad
Date of birth 24-10-1971
Phone 01210860108
Marital status Married
Military Service Good model
Nationality Egypt
Religion Moslem
E-mail waleed_ahmed1232000@yahoo.com

Education

Bachelor of Chemistry from Suez Canal University
Graduation very good
May 1994

Master degree of Organic Chemistry from Suez Canal University
Graduation very good
May 2002

Experience

1995-2003

Assistant manager in production & quality control department
PDC Henkel Egypt in liquid detergent section and cosmetics- Port Said
(Persil -Persil Gel - Peril - X-tra - General - Dac - Fa)

2003-2009

General quality control manager & formulation process manager
Deputy plant manager (after five years)
T.C.L. for special detergents, hotel amenities, cosmetics and
disinfectant for hospitals and hotel use-10th of Ramadan & Suez City

2009-2010

General quality control manager & formulation process manager
Plant manager
Cemix for special detergents, hotel amenities, cosmetics and
disinfectant for hospitals and hotel use Badre City

2010 - Jan.2019

- Theoretical Chemistry and Operational Knowledge of Analytical Instrumentation Like pH-Meter, Conductivity Meter, Moisture Analyzer, Melting Point Meter, Auto-Titrators, Karl Fischer, FTIR, UV-VIS Equipment, AAS, GC, and Data Stations Required.
- Assume required frequently in process and final analysis for SLES (Sodium Lauryl Ether Sulphate), CAPB (Coco Amido Propyl Betaine), CDEA (Coco Diethanol Amide), and LABSA (Linear Alkyl Benzene Sulphonic Acid) to ensure maximum quality.
- Having experience in the following
 - Liquid detergent:-
 - *Dish wash liquid *shine clean *Carpet &upholstery *Oven cleaner
 - * Toilet cleaner *Glass cleaner *Disinfectant detergent * liquid laundry detergent
 - Shampoo manufacturing:-
 - *for normal, dry hair *anti dandruff *shampoo with herbs *hair vitamins
 - *special type for children (anti lice& detangling and conditional shampoo) *f ends lotion *shower& shower gel *Conditioner "balsam" for hair
 - Hair care manufacturing:-
 - * Hair Gel (different types * Hair lotion * Hair serum * Hair spray prodct * Cream Gel * Hair Masks *High effective (problem solving) hair products
- Face cream:-
 - * Weighting creams (different product for different uses)
 - * Sun protection product (different product for different applications)

*skin cream for (elbow & knees & upper thigh) *Face cream with different extracts and actives *cracked feet cream & hand, nail cream & face mask & anti-wrinkle & anti burns *Roll on & deodorizing

Work History in Albiariq

- ❖ Working as a manager process DCS & field chemist in field of surfactants sodium lauryl ether sulfate (SLES) & linear alkyl benzene sulfonic acid (LABSA) & Alfa olefin sulfonate (AOS).
- ❖ Take full responsibilities to control on all process parameters (pressure, temperature, flow, density, PH, color) of manufacture by controlling DCS.
- ❖ Daily checking all process equipment's & applying the TPM on process equipment's in field (pumps, blowers, fans, ESP, reactor, neutralizer, ageing, hydrolizer, furnace, converter, melter, control valves).
- ❖ Controlling on all chemical addition for final product adjustment to achieve desired quality parameters for customers.
- ❖ Manage maintenance, repair & troubleshooting of mechanical Equipment including compressors, Gear pumps, Vacuum pumps, Centrifugal pumps, cooling towers & piping corrosion.
- ❖ Decreased equipment failure and spare parts consumption by applying daily EHC record.
- ❖ Monitor and control the entire production process (including packing) in coordination with QC chemist.
- ❖ Manage the quality control activities by developing, implementing, monitoring and updating the quality control system to ensure that highest quality of products.
- ❖ Good controlling on consumption of raw material to increase total yield of production.
- ❖ Responsible for new employee training on the proper operation of process equipment according to SOP and all safety procedures and practices.
- ❖ Applying safety rules to achieve zero personal accident as possible.
- ❖ Ensuring the safest working environment possible for staff.
- ❖ Effectively manage and allocate the workforce to achieve required productivity.
- ❖ Achieve TOP milestones related to 5S and safety in entire production area.

Languages

Arabic : Native Language
English: Very good

Skill

Windows internet navigation
Microsoft Office. (having ICDL certificate)

Summary of qualifications:

- Twenty-four years of experience in all aspects of production & quality total management system and R&D and customer care department.
- Ability of manage multiple tasks in a pressured environment.
- Extensive background in planning, budgeting and forecasting for multinational companies.
- Experienced in training and supervising staff.

Employment history:

- Start as a chemist in quality control department
- Assistant manager in liquid & powder detergent quality control department.
- Plant manager and quality control department for special detergents, cosmetics, guest amenities and disinfectants for hotels and hospitals use.

Al-Biariq company for Sulphonation industries I want to explain to you our company size

We specialize in the production of raw materials Anionic surfactant and Alfa Olefin compounds

Also we are the leader in Saudi Arabia in the finished products

Detergent,

Sanitizers, Disinfectants and Cosmetics

COMPANY OVERVIEW

Al- Biariq Sulfonation Factory was founded in 2005 to develop specialty surfactant for specific markets and individual customer needs. We specialize in servicing the industrial compounders in detergents and cosmetics working Industries. We focus on product development and cooperative research with our customers. The research, product development, and laboratory personnel of our customers become our partners

in the development of unique surfactant to meet their specific and specialized needs.

For over 11 years, our company has offered technical support, unequalled

customer service, and dedication to each industry we serve.

About Al -Biariq Strategy

Expertise in surfactant technology...

Our primary focus is surfactant chemistry and application. We pride ourselves on being able to provide true expertise and assistance to help the formulator develop new products and technologies. We have a dedicated

laboratory facility aimed at analyzing and matching products and we also

provide technical support to assist customer queries. We see this as key to the growth of the business and as a company we continually develop new products to meet customer demands.

Our chemistries...

All surfactants contain both a hydrophobic and a hydrophilic section, and as a combination of these two differing characteristics within the molecule, many differing properties can be achieved. We have products that produce high foam. Our products offer excellent detergency and are used in cleaning formulations. We have surfactants that offer good emulsification of oils. Also our products that offer excellent wetting power.

We are the main producer for anionic surfactants which is the Basis of all household products and personal care .

The anionic family is that which contains one or more negatively charged substituent's (anions). We have such families containing sulfonate, sulfonic acid, groups.

Also we are the only producer of Alfa Olefin Sulfonate (AOS) in the Middle East.

Global player...

We ship products to all global regions and are continually developing new supply networks within all countries and regions.

Quality and the Environment...

We view both quality and environmental compliance as essential components of the business. As expected we are a quality assured company with compliance in accordance with ISO9001 and with an excellent environmental profile we have been certified to ISO14001 and ISO 18001. As a member of our responsibly, we are committed to managing the business both ethically and responsibly.

Mission Statement...

Sulfonation Factory is fully aware of the high importance of socially responsible behavior, as well as sustainable entrepreneurship. Therefore, we focus continuously on creating products which are environmentally friendly, and thus contribute to the improvement in our quality of life.

Not only are we strictly committed to environmental laws, but also to the principals of social responsibility, which are incorporated more and more in our daily strategy. In this way, we aim to advance awareness and goodwill, whilst building a sustainable and impressive business.

Personal Care and Home Care

Our factory are the leader of manufacturer cleaning agents and cosmetics

. We deliver a wide range of products with application in most applications associated with cleaning and cosmetics as :

Home Care cleaner ,Manual Dishwashing ,Automatic dishwashing ,Hard Surface cleaning ,Cleaner Wipes ,Laundry Detergents ,Special Detergents ,Fabric Softener ,Industrial Cleaner ,Institutional Cleaner ,Ware washing, Disinfectants, Sanitation products, Hygiene products. Shampoo ,Baby / Kids Shampoo ,Conditioning ,Treatment Styling Cream , Shower / Bath Products ,Baby / Kids Cleansing ,Liquid Soap ,Body/ Hand care ,Baby care , Sun Protection, Antiperspirants & Deodorants ,Toothpaste.
