## EXPERIENCE

### Nejoum Al Jazeera for Shipping Used Cars, United Arab Emirates, Sharjah — *Senior Software Engineer – Flutter Developer*

August 2024 - PRESENT

Working as part of a team to completely re-organize and re-architect flutter app to implement a newer auction app

### Almentor, United Arab Emirates, Dubai, Remote — *Senior Software Engineer – Flutter Developer*

June 2023 - July 2024

Worked as team member to implement Almentor flutter app.

Individually implemented multiple new features like videos digital rights management (DRM), Algolia search and others.

Providing support and guidance during the app deployment process.

Well understanding the business and communicating with other teams to avoid gaps.

### Arab Dt, Egypt — *Senior Software Engineer – Android Developer– Flutter Developer*

Nov 2021 - May 2023

Worked as senior android developer for the company, very quickly jumped on-board and took full responsibility of the development and operation of android apps.

Worked closely with product managers, designers, and QA testers to deliver high-quality features on time.

Collaborated with cross-functional teams to gather requirements, analyze user needs, and translate them into technical specifications.

Actively participated in code refactoring, and knowledge sharing sessions to improve team productivity and maintainability of the codebase.

Led new junior developers, providing technical guidance, mentorship, and code reviews to ensure code quality and adherence to best practices.

### Saudi Block chain, Saudi Arabia, Remote — *Senior Android Developer*

Mars 2020 - oct 2021

Designing, coding, and testing Android applications using Kotlin.

Implementing best practices and following design patterns to ensure high-quality code, performance, and reliability.

Identified and resolved issues to optimize applications performance.
