## ABOUT ME

Hey There, hope all is good with you.

My name is Ahmed Hossam, I am 21 years old.

I've finished my primary stage at Asmaa Fahmy language school, now I'm an undergraduate majoring in computer science at Cairo university.

I've 5 family members and i am the eldest in siblings.

I enjoy playing mma with my mates as it's my favorite hobby, also I work as a mma coach at Al Gzira Club in my free time.

I've used to work as freelance graphic designer and video editor for two years.

I've started working in the real life in different jobs and different positions that i have never imagine to work in it but I must deal with this field because I still an undergraduate.

I believe that as long as I'm still alive and my mind can still function, I need to improve myself and that's why I never stop learning.

Any position I go I am obsessed with learning quickly and being number one in the place.

I've worked at RCX Company as backoffice agent too for 6 months, then I got promoted to be a Quality auditor, then the last position I have been promoted to at RCX is "trainer" for the new comers.

I've left RCX in 2023 to join Teleperformance company to increase my experience, and now I have about 1 year of experience as a backoffice agent at Teleperformance, then I've been promoted to be a team leader.

I'm going to leave Telperformance and Egypt because i need to gain more experience in the thing that I love and I believe that I will gain it with MRBEAST team.

So i am excited to be here.

---
