Summary

Results-driven **.NET Developer** with hands-on experience in designing, developing, and deploying scalable **web** and **desktop applications** using **C#, ASP.NET Core, MVC, SQL Server**, and **REST APIs**. Skilled in **Agile/Scrum**, performance optimization, and **full-stack development** with **Angular**. Passionate about clean, maintainable code and delivering practical business solutions.

Education

2020 – 2024 Cairo, Egypt	**Bachelor of Social Work (Grade: Good)** *Helwan University*

Professional Experience

2025/08 – Present
Cairo, Egypt

ASP .NET Mentor at MEC Academy
- Mentoring junior developers in the **.NET track** by providing guidance on **C#, ASP.NET Core, Entity Framework, and SQL Server**.
- Reviewing assignments, debugging code, and preparing students for **real-world development** and **technical interviews**.

2024/08 – Present
Cairo, Egypt

Software Engineer (.NET Developer)
Cyrus Technology Company — Cairo, Egypt
- **Develop and maintain scalable .NET applications, ensuring high performance and reliability.**
- **Design, implement, and optimize backend and frontend solutions using .NET technologies.**
- **Build, test, and deploy enterprise-level applications following best practices and standards.**
- **Collaborate on software development projects, delivering robust and maintainable .NET solutions.**
- **Implement features, fix bugs, and enhance .NET applications for business requirements.**
- **Developing and maintaining applications using .NET for the ETA Portal.**

Projects

Tickets CRUD Web Api's
https://github.com/ahmeedsleem00/CRUDforTicket ⧉
Built an API for ticket management using **AutoMapper** and **Dependency Injection** with clean architecture.

E-Commerce
github.com/ahmeedsleem00/eCommerce ⧉
- Developed a dynamic platform with **Angular** and **TypeScript**, integrating payment gateways.

OOP Examination System
github.com/ahmeedsleem00/OOP_Exam ⧉
OOP Examination System in C# leverages object-oriented principles for efficient data management, providing a seamless user experience for exams and results

Crud Operation ASP.Net (MVC)
github.com/ahmeedsleem00/MVC_Project ⧉

MVC Project in ASP.NET utilizes Model-View-Controller architecture for scalable web applications, facilitating seamless interaction between data, presentation, and user actions

Talabat Recipe .NET APIs

github.com/ahmeedsleem00/Talabat ⬈
• Developed backend APIs to manage recipes and orders with secure authentication and optimized performance.

Order Management .NET APIs

github.com/ahmeedsleem00/OrderManagement ⬈
developing an enhanced Order Management System. The system should allow customers to place orders, view their order history, and allow administrators to manage orders

Customer Management System

https://github.com/ahmeedsleem00/CyrusCustomer-master ⬈
• Designed a role-based system with **Excel import**, search, and **real-time assignments** using **ASP.NET** ⬈ **Core MVC**.

Skills

Technical Skills:
• **Programming Languages:** C ,C#, C++, JavaScript, TypeScript
• **Frameworks & Technologies:** ASP.NET ⬈ Core (.NET 7/8), MVC, Entity Framework, REST APIs, Web APIs, Dependency Injection, LINQ, OOP, Design Patterns
• **Frontend Development:** Angular, Bootstrap, HTML5, CSS3, SCSS, jQuery
• **Databases:** SQL Server, T-SQL
• **Tools & Platforms:** Git, GitHub, Visual Studio, Postman, Jira
• **Concepts:** SOLID Principles, Microservices Architecture, Problem Solving, DS & Algorithms

Soft Skills:
• **Teamwork**: Works well in teams.
• **Adaptability**: Quick to learn new tools.
• **Problem-Solving**: Resolves issues efficiently.
• **Attention to Detail**: Delivers quality work.
• **Critical Thinking**: Makes informed decisions.
• **Creativity**: Thinks outside the box.
• **Leadership**: Takes initiative when needed.

Certificates

Route Academy | Full-stack Developer Diploma
5/2023 - 5/2024
•The course covers front-end tools: JavaScript, AJAX, JSON, Angular,MVC , Api's and Asp.Net .

Courses

2023/05 – 2024/06 Cairo, Egypt	**Full-Stack Diploma** *Route* C# - ANGULAR - ASP.NET MVC ASP.NET CORE SQL -EF Core
2024/10 – 2025/03 Cairo, Egypt	**Problem Solving Contest** *Coach Academy* Problem Solving Using C++
2025/08 – Present	**Microservices with Clean Architecture** *Online By : ENG-Abanoub Nabil* Learning Microservices architecture implementation using Clean Architecture principles effectively, Docker, CQRS, and scalable system design.
