

Moaz Abdo Mera

Full Stack .NET Developer

Location: Cairo, Egypt | **Mobile:** +201062215070 | **Gmail:** moaz.mera.93@gmail.com |
LinkedIn: moaz-mera | **GitHub:** moaz-93 | **Military Service:** Completed.

Summary

Aspiring Full Stack .NET Developer with hands-on experience building full web applications using ASP.NET Core (MVC & Web API) and Angular. Skilled in creating responsive frontend with HTML, CSS, Bootstrap, and JavaScript, and building secure backend with C#, Entity Framework, and SQL Server. Familiar with RESTful APIs, Git, and Agile practices. Passionate about learning, solving real problems, and building useful software.

Internships

Information Technology Institute (ITI) – Tanta, Egypt

.NET Full Stack Web Development Intern

- Completed an Intensive Training Program (ITP) in full-stack development using ASP.NET Core and Angular.
- Built secure, real-world web applications using clean architecture and role-based access.
- Applied Agile methodologies and collaborated on team and solo projects.

Key Projects:

- **(ITI Graduation)** Netflix Clone – ASP.NET Core Web API, Angular, SQL Server, JWT.

🔗 **GitHub:** Netflix_Clone.

- Exam System – ASP.NET Core Web API, Angular, SQL Server, JWT.

🔗 **GitHub:** Exam_System.

- School Management System – ASP.NET Core MVC, EF Core, SQL Server, Identity.

🔗 **GitHub:** School_Management_System.

- E-Commerce Website – HTML5, CSS3, Bootstrap, JavaScript, LocalStorage.

🔗 **GitHub:** E-Commerce_System.

Education

Bachelor of Science in Mathematics and Computer Science

Faculty of Science, Menoufia University – Egypt

Graduation Project: Restaurant Management System – Desktop application built with C# for managing orders, inventory, and billing.

Technical Skills

Languages & Scripting: C#, JavaScript, TypeScript, SQL, HTML5, CSS3

Frontend Development: Angular, Bootstrap, Responsive Design

Backend Development: ASP.NET Core (MVC & Web API), Entity Framework Core, Razor Pages

Database Technologies: SQL Server, ADO.NET, T-SQL, Database Design

Authentication & Security: ASP.NET Identity, JWT, Role-based Authorization

Development Tools & IDEs: Visual Studio, VS Code, Git, GitHub, Postman, SSMS

Architecture & Patterns: MVC, RESTful APIs, Dependency Injection, Repository Pattern

Other Skills: Debugging, Code Refactoring, Version Control, Agile, SCRUM, Desktop App Development

Freelance Projects

Burger Restaurant App: ASP.NET Core MVC, EF Core, SQLite

Developed a restaurant management system with admin features to manage menu, categories, and orders.

Built with Bootstrap and JavaScript for a responsive UI.
