Summary

Accomplished Senior Backend Developer with over 12 years of experience in backend development, specializing in PHP, Laravel, and Yii Framework. Proven track record in mentoring junior developers, coordinating cross-department teams, and implementing continuous integration and deployment strategies. Expertise in designing and deploying RESTful APIs, managing relational and NoSQL databases, and utilizing AWS services for scalable solutions. Demonstrated leadership in breaking monoliths into micro-services and refactoring legacy code for improved performance. Adept at collaborating with product managers, designers, and business stakeholders to align project requirements with organizational goals. Career goal: to leverage extensive technical skills and leadership experience to drive innovative software solutions within a dynamic team environment.
